OMNES HEALTH

Community behavioral health, stronger together.

A network of trusted local providers across Upstate New York, working as one to improve care and keep community services strong.

WHO WE ARE

Omnes means "everyone" in Latin, and that is the idea: when community providers join together, everyone is better off.

Omnes is an **Independent Practice Association (IPA)**. Our members are community organizations offering mental health, addiction, and whole-person care. We help them work with health plans, use data to improve care, and get paid for good results.

We reach from the **Canadian border to Pennsylvania**, in cities and in rural communities where care can be hard to find.

34 counties, from Canada to Pennsylvania

WHAT WE DO

Health plan contracts

We negotiate with Medicaid, Medicare and commercial plans on behalf of many providers. Each member decides whether to join.

Data that helps care

Omnes Insights, our secure data platform, turns claims and clinical data into clear pictures of patient needs and results. Members can also compare their results across the network.

Quality, together

Monthly scorecards and quality improvement programs help members learn from each other and show the value of their work.

Community programs

We bring in grants that fund local care. Our $3M federal (HRSA) **Community Care Pathways** grant links addiction care across the North Country.

CARE ACROSS THE FULL RANGE

- Mental health
- Addiction treatment
- Community clinics (CCBHCs)
- Residential recovery
- Children & families
- Developmental disabilities
- Peer support
- Opioid treatment
- Social needs

Our members are community-based organizations, rooted in the regions they serve.

OUR STORY

- **2017** New York State launches Behavioral Health Care Collaboratives to prepare providers for value-based care.
- **2023** Omnes merges with Your Health Partners, adding Rochester and the Finger Lakes.
- **2026** Northwinds (North Country) and Omnes (Central NY) unite under the Omnes name.
- **Today** Growing our contracts, data, and programs across the region.

For people we serve

Better-connected care close to home, with fewer gaps between services.

For providers

A stronger voice with health plans, shared tools, and support no one could build alone.

For health plans

One partner, many providers, and real data on quality and cost.
